The Soy Choice

If you've ever thought of trying soy milk as an alternative in your coffee, cereal or recipes, Vitasoy Original should be your first choice. Vitasoy has a full, creamy taste with all natural ingredients and no artificial colours, flavours or preservatives, plus it's low-GI and safe for vegetarians. It's made from Australian-grown certified organic whole soy beans that are free from genetic modification, and grown by a small group of hand-selected farmers. Available from supermarkets, Vitasoy Original is your first choice in soy. Visit www.everestfoodservice.com.au or call (08) 9330 0900 to find out more.

Products & Supplies

Reliable tech for your business

ImPOS is Australia's fastest growing Point-of-Sale and wireless handheld provider, developed on quality and reliability. For the first time, hospitality venues have a system which is fast, reliable and easy to use. ImPos Handheld Software uses the latest WiFi technology, but its software does not rely on constant wireless connectivity, increasing reliability and battery life while reducing downtime and operating costs. Restaurants and cafés alike are now embracing the benefits that ImPOS's new WiFi technology can provide, which includes full colour easy to use handheld ordering and intuitive menu screens and programming. To find out how ImPOS Wireless Handhelds can help reduce staff costs and increase sales and security go to www.21stcenturybusiness.com.au or call (08) 9321 8902.

Great to spread

Natex Reduced Salt savoury spread is full of flavour and goodness without added salt. Since it contains less than one per cent salt, it is the perfect alternative to standard yeast extracts, which usually contain around 12 per cent salt. Natex is a low-fat food with added B vitamins including vitamin B12. It is delicious on toast, sandwiches or to flavour casseroles or gravy. Visit the E.C. Choate and Co website at www.choate.com.au for all the details.
